

Boil Water Advisory
To Customers of Valley Public Service Authority
Effective September 26, 2022

The General Manager advises the customers of Valley Public Service Authority Water System residing in the following areas that water service has been interrupted in order to perform unforeseen system repairs. Once water service is restored, **those customers that experienced an interruption in their water service, or low water pressure**, are advised to vigorously boil their water for at least one (1) full minute prior to drinking or cooking, until further notice.

Monroe Street
Dewey Street
Malta Place
Rusty Lane
Johnson Boulevard
Elizabeth Street
Polatty Street
Howlandville Road from Marie Drive to Augusta Road

There has been no confirmed contamination of the system. However, because of the interruption in service, the potential for contamination will exist. Therefore, as a precautionary measure, the customers of the water system that have experienced an interruption in service or low water pressure are advised to vigorously boil their water for at least one (1) full minute prior to drinking or cooking once service is restored, until notified otherwise. Also, any ice made from water which has not been boiled should not be used for drinking purposes.

The South Carolina Department of Health and Environmental Control (SCDHEC) is presently working with the water system to handle the problem.

If you should have any questions concerning this notice, you can contact the water system at (803) 593-2053.

Calvin Smith
General Manager
